

**And You May Ask Yourself, How do I work this? Or How did I get here?**

I was also thinking of calling it, "Is this what I ordered? I'd like to see the manager."

Wisdom from our Sister church, the Centers for Spiritual Living.

God is infinite, but nice way to see the different parts

Three levels  
SEED SOIL PLANT

**The 4 Kingdoms, Levels of Spiritual Consciousness**

We go back and forth between them . Love yourself wherever you're at.

They are all aspects of yourself as God.

BTW, to get to the next Kingdom you have to give up something.

1. Life is being done ...TO ME Victim, at effect, separate

Let go of Blame -Take Responsibility, get to

2. ...BY ME

Positive Thinking, Creative Thought. I am making it happen

Let go of Control. Surrender to get to

3. ...THROUGH ME

God and I are partners. The yearning in my heart is my special gift to the world.

Life flows easily.

Let go of any last belief in Separation, get to

4. ...AS ME

I AM. I know that I am the infinite creator

I asked Chat GPT. "The five steps of CSL spiritual mind treatment, written in the style of Dr. Seuss" This came back in less than 10 seconds.

**\*\*Step 1: Recognition\*\***

*You see, my dear friend, it's a marvelous sight,  
There's one Source, one Power, shining so bright.  
This Force is within, around and above,  
It's all that exists, the purest of love.*

**\*\*Step 2: Unification\*\***

*Now let's take a moment, just stop and reflect,  
You're one with this Power, you're one, I suspect.  
No separate being, no far-off retreat,  
You're part of this Oneness, a truth so complete.*

**\*\*Step 3: Realization\*\***

*Here's where the magic truly begins,  
Affirm what you wish, let's see those grins.  
Health, joy, abundance, all that you crave,  
Declare it, affirm it, be strong, be brave.*

**\*\*Step 4: Thanksgiving\*\***

*Oh, gratitude, gratitude, oh what a gift,  
Thank you, dear Universe, for this wonderful lift.  
Give thanks in advance, for what you've received,  
In the heart of your being, it's already conceived.*

**\*\*Step 5: Release\*\***

*Finally, dear friend, let go and release,  
Trust in the process, feel the sweet peace.  
You've done all you can, now let it unfold,  
With faith in your heart, watch miracles unfold.*
